

CHILDCARE ...IN THE HOME!

Introducing Theresa....

Hi! I have been working as an in home educator caring for children for 5 years now and we have welcomed quite a few amazing children into our home over the years.

Prior to this I worked for the Ministry of Education as a special education educator supporting children, and their families, with learning difficulties & extra support.

My husband and I live at home with our amazing teenage daughter, 2 chickens and 2 cats.

We enjoy time at home with our safe fully fenced yard which has a sandpit, swing, fruit trees and lots of outdoor toys.

I also love to do arts and crafts with the children and have plenty of fun with paint, stickers, playdough and all sorts!

My programme consists of both fun and learning in my home, as well as attending local music and craft groups that are near home.

This is my passion. I love working with children and their families supporting their child's development and prepare your child for school. I focus on all areas of development and 'life skills' as well as having fun with colours, numbers, speech, motor skills and coordination.

Thank you and I hope to meet you and your little one soon :)
